# PRODUCT SPECIFICATIONS

## IOM No Bubble™ \$129.99

GLOSS: 5110-G

MATTE: 5110-M

### Key Features & Benefits

- Finish: Gloss & Matte
- 2.3 mil calendared PVC film
- 90# PE-coated silicone release liner
- Expected outdoor durability up to 4 years. (Actual results may vary if exposed to extreme conditions)
- Adhesive Semi-Permanent Gray solvent/acrylic
- Release liner embossed white 145g/m2.
- Final tack 48 hours
- Compatibility: Use with Solvent, Eco, UV and Latex printers. (A pretest is always recommended.)

Properties: The product offers a Gloss or Matte print surface and grey acrylic adhesive, great for mostly flat applications where block-out is required.

Installation: Product offers **Air Release No Bubble™ Technology** resulting in a fast, bubble free application

Handling: Avoid touching material or introducing dust and dirt on to print face. This can cause anomalies and artifacts when printed. Always store unused material wound in original packaging.

Printing: Suggested Media Setting Universal Self Adhesive Vinyl. Depending on printing platform and RIP software, the suggested maximum ink load is 300%. Make sure that ink is dry when it reaches the take up reel. An external dryer or heat lamp will accelerate drying.

Extreme heat can cause material to buckle. For best results calibrate media feed and bi-directional and optimum heater settings before using. 540 dpi, 8 pass offers a good balance between quality and speed.

Recommended Uses: For vehicles, walls, floors, sign wraps and other medium-term outdoor applications.
