Cold Laminate for protection of medium-term indoor and short term outdoor digital print applications

Properties: Provides protection for short to medium-term indoor and short-term outdoor applications. Recommended for cold lamination.

Installation: Intended for Cold Lamination. Check with specifications of printed media for outgassing recommendations. We recommend 24hrs between printing and laminating.

Handling: Avoid touching material or introducing dust and dirt. Make sure material to be laminated is free of dust, dirt, and debris before application. Always store unused material wound tight in original.

Recommended Uses: For walls, floors, rigid signs and other medium-term indoor / short-term outdoor applications.
